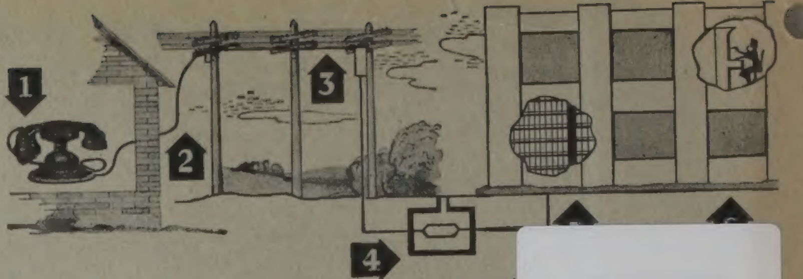
PAGES FOR HELPFUL INFORMATION

MANY FACILITIES ARE NEEDED TO PROVIDE TELEPHONE SERVICE

Three different types of equipment are required:

- (A) Telephone Instruments.
- (B) Wires or Cable from the Instruments to the Telephone Office.
- (C) Switchboards and Other Equipment in the Telephone Office.

A shortage of any one prevents us from supplying new service until equipment in use is released by someone giving up his service, or until we are able to manufacture and install more facilities.



1. The telephone instrument is only a small part of the facilities needed.
2. Wiring, inside and outside the building, is required.
3. A pair of wires must be available in cable serving neighborhood.

At Your Service

Your telephone account is handled by a young lady in our business office, called a Service Representative, whose job is to make sure your telephone service is satisfactory at all times. Whether you're moving your telephone to a new location, or have a question about your bill, or about your telephone service, she'll be glad to help you. If you're moving or discontinuing service, please let us know as far as possible in advance. Just call or dial 9981, (Dyer subscribers Dial "0" (Operator) and ask for Business Office and you'll be connected with your Service Representative.

If you prefer to transact business in person, we shall be glad to see you at the Business Office. Office hours are 8:00 A.M. to 5:00 P.M.—Monday through Saturday. (For location of your business office, see page 1.)

USE THIS DIRECTORY FIRST

Many calls to "Information" are unnecessary since they are for numbers which are listed in the directory. Every operator and all telephone facilities are needed to handle today's huge volume of calls.

So please don't ask our Information operators to look up numbers unless you are sure they are not listed in this directory. You can get your call through faster by referring to this directory and calling by number.

Your cooperation is appreciated.

TELEGRAMS BY TELEPHONE

You may telephone telegrams, cablegrams, or radiograms to the Western Union Telegraph Company.

By arrangement with the Western Union Telegraph Company, the charges for telegraph messages sent by telephone will appear on your monthly telephone bill. On messages telephoned from public coin box telephones, you will be requested to deposit the telegraph charges in the coin box.

YOUR TELEPHONE NUMBER

Occasionally, in the past, it has been necessary to change the telephone numbers of some of our subscribers. It may, likewise, be necessary to change some numbers in the future.

We're sorry we can't say to you, "We'll never have to change your telephone number." As a matter of fact, we don't like to change them and won't do it unless it is absolutely necessary.

FOR YOUR PROTECTION

Naturally, our customers want to take every precaution to prevent unauthorized persons from entering their homes or places of business.

For your protection, telephone employees who visit the public, carry identification cards with their names and photographs which they will gladly show you. If you have the slightest doubt about anyone who calls "from the Telephone Company," **ask to see his credentials.**

LOOKING AHEAD IN THE TELEPHONE BUSINESS

Once more we are "on our way." In the months and years ahead, the Bell System intends to go forward providing a service more and more free from imperfections, errors or delays, and at a low cost.

Here's a bird's-eye view of our long range program:

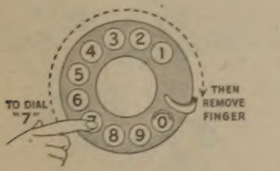
1. Catching up with requests for services now held in abeyance because of lack of facilities.
2. Catching up with plant shortages to provide for the volume of business presently being handled.
3. Replacing temporary wartime types of plant and materials with new and better apparatus.
4. Improving telephone equipment on customers' premises.
5. Expanding the long distance network, including provisions for television and the use of radio facilities.
6. Extension and improvement of rural telephone service.
7. Replacement of manual equipment by dial equipment for local service.
8. Provision of equipment to enable telephone operators to speedily dial and complete calls direct to subscribers at distant points without calling on the services of an intermediate operator.
9. "Streamlining" our toll service by providing equipment which will enable subscribers to dial certain calls direct to nearby towns.
10. Extension of service in such fields as service to motor vehicles, over-seas telephone service, etc.

How to Use Your Telephone

THREE SIMPLE RULES FOR DIAL CALLS (Dyer Only):

1 **Look in the directory** if you're not sure of the number.

2 Hold the receiver to your ear. Listen for dial tone—a steady humming sound. This is your signal to start dialing. **Listen for it before dialing.**



3 Dial the figures of the number as it appears in the directory. Pull the dial all the way around until your finger strikes the metal finger stop, then **remove** your finger and let the dial return by itself.

IF YOU NEED ASSISTANCE

Dial "0" (Operator) if you need assistance. But remember, it is faster to dial yourself.

If for any reason you cannot see the dial, feel for the opening just below the finger stop. Pull the dial all the way around, release it, and the operator will answer.

TO CALL ANOTHER PARTY ON YOUR LINE (Dyer Only)

If the first three figures of the desired number are the same as the corresponding figures of your number, this telephone is on your line.

1 After you have determined that the subscriber is on your line, dial "9," and then dial the last figure of your number and the last figure of the called party's number.

For example: Suppose your number is 7351 and you are calling 7352, you would dial 9-1-2.

2 After you have finished dialing hang up your receiver to allow the other party's bell to ring. Your bell will also ring at intervals indicating that the other telephone is ringing.

3 When ringing stops you will know that the other party has answered. Remove your receiver and proceed with conversation.

4 If your party does not answer within a reasonable period, remove your receiver momentarily in order to clear the line.

TO DIAL FROM A COINBOX LINE (Dyer Only):

To call a local number:

1 Remove the receiver from the hook, but **do not** deposit coin.

2 Listen for the dial tone.

3 Dial the number wanted.

4 When the called number answers, you will hear the dial tone again, then deposit coin PROMPTLY.

To call out-of-town places:

1 Remove the receiver from the hook, but **do not** deposit coin.

2 Listen for the dial tone.

3 Dial "0" (Operator). When the operator answers, give the call to her; deposit coin when the operator asks for it.

"PARTY LINE COURTESY" PAYS

Since telephone equipment is scarce many of our customers are using party-line service temporarily.

And the best party-line service for all depends on courteous, co-operative use of the line.

If you're a party line user, you can do your part. Listen a moment to make sure the line is clear before you call—try not to interrupt your neighbor's conversation. Hang up quietly if the line is in use.

Keep your conversations as short as you possibly can so others can use the line, too.

Be considerate of others, and they'll return the courtesy!

THREE SIMPLE RULES FOR NON-DIAL CALLS:

1 **Look in the directory** if you're not sure of the number. If you do not find the number ask for "Information."

2 Listen for operator's "Number, please?"

3 Give number to operator. Always speak distinctly in an ordinary tone of voice with lips about one-half inch from mouthpiece.

LINE'S BUSY—THEY DON'T ANSWER

Within a few seconds after you finish dialing or giving your number to the operator you will hear:

The ringing signal—an interrupted "burring" sound. If, after a reasonable time, your party doesn't answer, hang up. When using a coin telephone, your coin will be returned.

The busy signal—a "buzz-buzz-buzz" sound. If you hear this signal, hang up before making another call. When using a coin telephone, your coin will be returned.

YOUR OPERATORS EXPLAIN OUT-OF-TOWN CALLS

CALLS TO NEARBY PLACES

"I'm your regular operator, and I can connect you with many of the nearby places. (See page 5.)

"If you don't know the number, please refer to the directory first. If you don't find it, ask for 'Information' or from a Dial telephone, dial '0' (Operator) and ask for 'Information.'

"If the initial rate for your station-to-station call is 25 cents or less, five minutes are allowed without an over-time charge. If the initial rate is 30 cents or more, an overt period starts after three minutes.

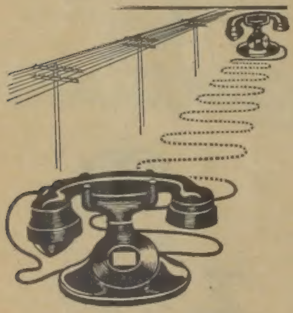
"LONG DISTANCE"

"I'm your Long Distance operator, and your regular operator will connect you with me. From a Dial telephone, dial '0' (Operator) and ask for 'Long Distance.'

"My lines are carrying the greatest volume of calls in history. So, occasionally I may inform you that the 'circuits are busy,' or to 'please limit your call to 5 minutes.'

"You can help improve the service for everyone and avoid delays on your own calls if you will please . . . . .

Make only necessary Long Distance calls.
Keep calls as brief as possible.
Give me the number of the party you are calling if you know it."



STATION-TO-STATION ↖

When you want the operator to do nothing more than ring a telephone number, place your call "station-to-station." Charges begin when anyone answers at the called telephone or private switchboard. Station-to-station rates are lower than person-to-person rates.

For faster service, you are urged to place these long distance calls by telephone number whenever possible.

PERSON-TO-PERSON ↗

Make a "Person" call when you want a particular person, or a particular telephone or department reached through a private switchboard. Rates are higher than "Station" rates, but charges don't begin until the person or department you want answers.

If you call from one point to another in Illinois, a Report Charge is made if the person you want cannot be reached and you ask the operator to cancel the call.

COLLECT CALLS

If you want to place a Collect call, the Long Distance operator will ask the person you are calling if he will pay the charges. No additional charge is made, except on Station-to-Station calls where the initial rate is 20 cents or less.

If the party you want refuses to pay for the call, a Report Charge will be made on calls between points within the State of Illinois unless you decide to pay for the call yourself.

REDUCED RATES

Between 6 P.M. and 4:30 A.M., and all day Sunday, reduced rates are in effect. They apply to "Station" calls if the initial period rate is more than 35 cents, and to "Person" calls if the rate is more than 50 cents.

OVERSEAS, SHIP-TO-SHORE

You may talk to certain foreign countries. Call Long Distance or dial "0" (Operator) and ask for "Long Distance" and place your call in the usual way.

Certain ships in harbor waters, and on the Great Lakes and inland rivers may be reached by telephone. Simply ask for the Long Distance operator (or from a dial telephone, dial "0" (Operator) and ask for "Long Distance") and place your call in the usual way.

Hammond, Ind.

PLEASE CHECK THIS LIST BEFORE MAKING CALLS TO NEARBY PLACES

Before making calls to nearby places, please check this list so that you will not call Long Distance unless your call is regularly handled by the Long Distance operator. Long Distance places are marked with an asterisk (*). To all places not marked with an asterisk, please place your call through your regular operator. By doing this, you will be freeing our Long Distance operators to handle the mounting volume of calls.

Rates shown are station-to-station rates for the initial talking period. This period is five minutes, with the exception of station-to-station rates of 30c or more—where the initial talking period is three minutes.

For That Home-To-Be . . .

PLANNED TELEPHONE SERVICE!

Telephone service . . . like gas, water and electrical facilities . . . should be planned in advance. Telephone wiring can be as modern and inconspicuous as plumbing and electrical work *if provisions for it are made before your home is built.*

Rigid, flexible or thinwall conduit, placed in walls and floors by your contractor, eliminates exposed wiring on baseboards and moldings and enables you to have *built-in telephone outlets* wherever you desire in your home-to-be. Costs are nominal. The telephone company provides wires and wiring work. You merely have the conduit installed.

Your telephone company will be glad to give you further details on request. Just call our business office and ask for:

about

HAMMOND and CALUMET CITY

Hammond, formerly known as [illegible] County, Indiana, in the northwestern part of the State and directly adjacent to Chicago's eastern limits.

In 1868 George Hammond, in whose honor the city was later renamed, located his packing industry in this territory and was instrumental in the community's early development. The city charter was secured in 1873 and Hammond's growth as an important packing center was rapid. The beginning of the twentieth century, however, saw the meat packing business largely replaced by numerous diversified industries seeking to locate in a region that offered excellent transportation facilities by rail and water and an excellent accessibility to markets and raw materials.

Since 1900, Hammond has become one of the important centers for bookbinding and the manufacture of railroad equipment. Situated as it is, in the heart of the Calumet industrial region, its destiny and continued growth are assured.

Calumet City is located to the west of Hammond, and although in Illinois it is essentially and economically a part of the city of Hammond.

DR. WARREN S. HAMEL, D. C.

[illegible]

CHIROPRACTOR

Our aim is to render up-to-the-minute Scientific and Specific Chiropractic Health Service. The Neurocalometer and X-Ray enables us to get the worse cases better in shorter time. The Neurocalometer shows us where to adjust, and when to adjust, and when not to adjust. We are interested in chronic problem, stubborn, and difficult cases.

The Advanced Hole-in-one Health Service Technique Is No Guesswork

THREE VITAL [illegible]

1st — Where is the LOCATION? The Neurocalometer PROVES.
2nd — WHAT is the POSITION of the subluxation? The X-Ray PROVES.
3rd — The adjustment corrects position and releases pressure. HEALTH is the result. LOCATION and POSITION — both are vitally essential. The Neurocalometer establishes LOCATION. The X-Ray establishes Position. BOTH are vitally essential. Neither one does the work of the other.

Hours 10 A M to 12 — 1 P M to 6 P M

LAKE COUNTY MEDICAL SOCIETY, INC.

THE LAKE COUNTY MEDICAL SOCIETY

Organized in 1898, accepts in membership only duly trained and qualified physicians and surgeons who are pledged to conform to its code of ethics, which places the broad interests of the patient above every other consideration. Through its various agencies for general health education, for the distribution of medical care to every economic group, and for the exchange of scientific information and expert consultation, the Society brings to the people of Lake County the protection of the best in modern medical practice.

In answering the telephone, the English say "Are you there?" Some people say, "Hello." But in business organizations the correct answer is the name of the company or the department or the name of the individual who answers the telephone.
